ONTARIO

:: FOREWORD ::

LIBERTY of action, freedom of thought, and word, and the upholding of that which is right, true and just, are the principles underlying the titanic struggle which is rocking the very foundations of the civilized world to-day.

Proud indeed should Canada be in the knowledge that her sons are doing their part to bring about "The Day" when Equity and Truth shall reign triumphantly.

The Third Contingent, whose pictures are here shown, representing in a large measure the flower of our youth, are about to leave for the field of battle to fight for that which is near and dear to all our hearts.

This book is published in the hope of its proving of interest and value both to the men themselves and to their friends.

The "Stack" Gas Water Heater

The Vital Importance of Hot Water

¶ Doctor and nurse alike realize the importance of hot water being always available; the occasions when it may be required and the purposes for which it may be necessary are innumerable.

¶ The recovery, or even the life of a patient, may depend upon the facilities for obtaining water quickly just at the requisite temperature.

¶ THE "STACK" GAS WATER HEATER gives a supply of water at the right degree of heat, day or night.

¶ The "Stack" Heater is constructed on real scientific lines. It heats water quicker than any other tank heater on the market. The price of the heater is $19.00. Connected and installed without extra charge. The "Stack" Heater can be fitted with distant control if desired—for particulars

THE PLANT BEHIND

BERTRAM MACHINE TOOLS

60 years ago McKechnie and Bertram manufactured the first machine tools ever made in Canada on a commercial basis. Look at the immense proportions of the plant to-day!—and it is still producing Canada's leading tools.

No concern could make such a wonderful advance unless its products and its reputation were good. Over half a century of *building in quality, service and square dealing* stand behind every BERTRAM MACHINE TOOL.

Our up-to-date engineering organization will gladly give you honest advice as to what machine tool is best for your needs.

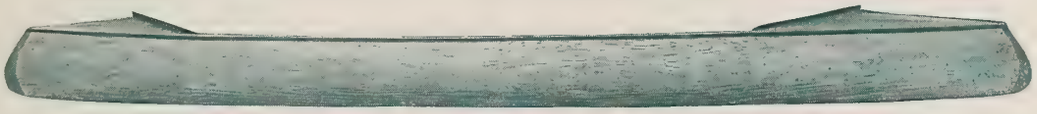
DEAN'S LATEST CREATION



The Torpedo Canoe

Dean's Canoes always lead—the newest designs, the latest ideas are creations of the Dean Factory. Dean sets the pace, others follow. Following the famous "Sunnyside Cruiser" comes our last word in canoes—the "Torpedo" design.

This letter was received from Mr. J. T. Mitchell, of Swift Current, Sask., who purchased the first canoe from this model.

WALTER DEAN
Foot of YORK ST., TORONTO, Ont.

Walter Dean, Esq., Toronto, Ont. May 25th, 1915.
Dear Sir,
Canoe as per our recent order has been received in good shape.
Let me say that this model is in my opinion the acme of canoe construction. In Eastern waters I had learned to thoroughly appreciate your superior craft, but this model surpasses anything which I have heretofore seen. While built for comfort she makes remarkable speed, answers rapidly and is easy to handle in rough and windy weather, an ideal feature in this country. Her lines are superb and I agree with my friends that she is the prettiest as well as the most carefully built boat we have ever seen.
Congratulating both of us, I am, very truly yours, J. T. MITCHELL.

HANDLE YOUR OILS AND GASOLINE WITH THE

WAYNE PUMP

IT PREVENTS WASTE DUE TO EVAPORATION, LEAKAGE & SPILLING & MAKES THESE GOODS MORE PROFITABLE.

It saves time and labor, as there is no constant filling and handling of measuring cups, and does away with dust and unpleasantness.

Throws a pint, quart, half-gallon or gallon, and measures exactly.

Works easily, and when not in use can be securely locked. Gears are completely housed. All parts accurately machined and thoroughly tested and are interchangeable.

If you are interested in a clean, safe, money-saving way of handling oils and gasoline, jot down a line for full particulars on the Wayne System NOW.
